

Memory Care

The Pines at Oakhurst specializes in providing care to seniors who have Alzheimer's, dementia or other memory impairments. Caring for individuals with a memory impairment requires special expertise. Our care team has been carefully selected and specifically trained to assist individuals with memory impairments.

We utilize the Validation Therapy Method of care, created by Naomi Feil, which validates a person's feelings and focuses on helping the person work through the emotions behind challenging behavior.

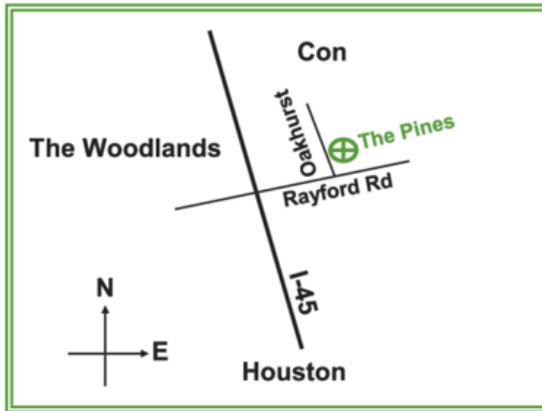

We engage our memory impaired residents through building relationships and enriching their lives with friendships and social activities. Working on the premise of yes — we redirect rather than correct.

What others are saying...

"After my husband and I looked at many personal care homes, The Pines was by far the best. Even family and friends agreed this home was above the rest. The staff are loving and caring people who are in this business for the right reasons"... **Leah G**, daughter.

"Excellent facility! So impressed by the care and care team I moved my loved one in". **Jason Cooper**,
Heart to Heart Hospice

Specializing in Person Centered Care

Nestled among the tall pines in the front of The Woodlands you will find a charming assisted living residential care home known as *The Pines at Oakhurst*. Our community is designed to look and feel just like your home, but with hundreds of special touches that have been carefully crafted to make life easier. We embrace all of the comforts of home, from home-cooked meals—to the companionship of our family pet.

No one champions quality of life for seniors like The Pines at Oakhurst. We understand assisted living is not a program, but rather an environment filled with compassion and care. We believe

in honoring our residents and respecting their dignity while optimiz-

ing their individuality.

We believe in the power of:

- touch, hugs, and life enrichment
- reminiscing and music
- pet companions; and
- Aromatherapy for psychological and physical well-being

SAFE ZONE

Our Mission is to create an environment that allows our residents to live everyday to the fullest, regardless of level of care.

Our vision is to empower seniors to “*Live Every Day Their Way*,” encouraging independence, enabling freedom of choice, and preserving life experiences through nurturing the mind and soul.

So many things make The Pines at Oakhurst the place you call home special, but what truly makes us different is our approach to care, quality of food, and our people. We are passionately committed to provide supporting loving care based on the needs of each individual. We listen carefully to the personal needs, preferences, and desires of each resident and incorporate that into our individual care plan, menu, and our everyday life enrichment activities.

The Pines at Oakhurst bridges the gap between independent living and the skilled nursing facility. Our resident's may age in place safely and comfortably with the assistance of our care team of doctors, home health and hospice agencies, and volunteers.

SAFE ZONE

We create a tailored made “Individual Personalized Care” (IPC) plan for each resident. Our goal is to provide the ideal level of Personalized Care that encourages our residents to live life to the fullest everyday regardless of the level of care they may need.

Care We Provide:

- Assistance with activities of daily living (bathing, dressing, grooming)
- Three delicious homemade meals and fresh snacks served daily
