

**QUALITY
INTEGRITY
FLEXIBILITY
COMPASSION**

Whether care is needed once a week, partial days, whole days, or every day, StarLight CareGivers is dedicated to providing the highest quality, cost-effective home care solutions so that our clients may enjoy their independence, enhance their quality of life, and bring peace of mind to the entire family. Our trained and experienced CareGivers are compassionate and committed to supporting your needs.

StarLight CareGivers provides free in-home assessment interviews which give us a clear understanding of our client's lifestyle and personality. We then develop a caregiver plan and match caregivers to the specific needs of a client.

We offer modern technology to keep everyone involved including a web-based portal where clients and their family have access to the service records. This portal is also accessible by doctors with the client's authorization. This service helps doctors and family look for any unusual conditions and act quickly whether you live across town or in another country.
