

Our Story

Kie to Care is owned and operated by a mother daughter team that recognizes the value of family values, love, and kindness. We have over 30 years of experience in the social service field. Both partners have worked with the elderly, individuals with intellectual disabilities, and mental health issues.

Working in the social service field allowed us to see the need for an agency that believes in respecting all individuals no matter what their differences or abilities are. We want to provide individuals with competent staff that also care about the individuals that they work with and for.
