

About Us

Sara's Comfort Care derived from southern family values and acts of kindness shown toward elders in the community. What started out as a leisure activity, grew into a vision, then a mission to be more consistent to provide that extra support with care to many more of our aging adults.

Sara's Comfort Care is a non-medical home care service dedicated to providing quality assistance and support to individuals in the comfort of their own homes. Our team of skilled professional and compassionate caregivers are committed to enhancing the overall well-being and quality of life for our clients. With a focus on personalized care plans and individualized attention, we strive to create a heartfelt and welcoming environment where clients feel safe and comfortable.

At Sara's Comfort Care we prioritize the needs and preferences of each client to ensure they receive the best care possible.
